Many travelers rate Tarangire among their favorite national parks anywhere in Tanzania. Here in Tarangire, you can look for lions, leopards, and cheetahs. But you won't have to look hard to see baboons, vervet monkeys, wildebeest, giraffes, hippos, buffaloes and zebras. And you'll come across elephants and baobabs everywhere, two giants of the African bush. Also an enjoyable part of your Tarangire experience will be the rolling savannah scenery, which includes rivers and low hills. And while it can get busy, crowds of cars will not be a problem here.

Day 6

Ngorongoro Crater

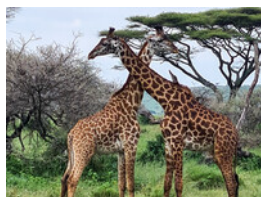

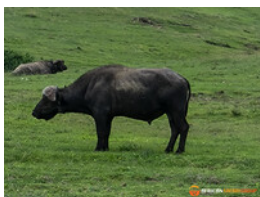

Your first sight of Ngorongoro Crater is likely not one you'll easily forget. As seen from the crater rim, this natural bowl, both vast and intimate, is one of Africa's most beautiful natural features, stretching 19 green kilometers (12 miles) from one side to the other. Down in the crater itself, you'll explore an astonishingly rich, self-contained ecosystem that is protected by high crater walls. Here, lions and hyenas hunt wildebeest and Grant's gazelle within sight of elephants and black rhinos. Your day spent here will reveal a surprising variety of habitats, from the Lereal Forest and salty Lake Magadi to the plains that rise and fall gently all across the valley floor.
